Newsletter for South Pacific and Africa

Christmas is coming and children are in and on our hearts. They need to know they are loved, accepted, safe and they need to be taught - principles of goodness, good manners, how to be polite, how to choose well and to love and obey God. Are you doing this in your family, in your street, in your neighbourhood and community? We are all part of the global family and God has called us to bless others around us and to share the good news of Jesus Christ. Let's all do this - this Christmas. Open your heart and home to those who need to know it. Share healthy food and drink. Don't allow any smoking, alcohol or drugs in your home. Those SAD poisons will ruin their lives and yours. Let your place be a safe and happy sanctuary for all who enter and cross your doorstep. For information and worksheets for children visit the WWCTU drug-free kids page and download lots of fun for children - <http://www.drug-freekids.com> Share this with the children you know and make a difference in their lives and make this a Christmas priority for you and yours. Their lives and futures are really in your hands. Pray that God will give you the courage and strength to bless, teach and influence them for good.

These children are in Masailand in Kenya. They are poor but safe in the care of people who love them and have their best interests at heart. If you want to know more about this project check this out - <kisaruentitoproject@gmail.com>

God bless you with loads of love to share

Joy Butler

These beautiful people in **Nairobi, Kenya** are dedicated to the principles of WCTU and promote the elimination of the SAD poisons. Douglas, on the extreme left, manages the WCTU/Turning Point Rehabilitation centre on the outskirts of Nairobi. He is a totally dedicated man of God and has seen many changes in the lives of scores of young men who are now free from the ravages of the SAD poisons. Pray for these people who are committed to helping the hurting people of Kenya. We met this year in August, 2019.
