May • June • July • August

If you ever feel that you're too small to make a difference, try sleeping in a room with a mosquito.

»Dalai Lama

We can make a difference!

A Prayer for Hope in the midst of hard times

Dear Lord God, heavenly Father

Thank you for helping us to make it through these difficult times.

Thank you that you've carried us through the uncertainty of deep waters, through the flames of trials, and through the pain of hard losses. We are constantly aware of how much we need you, your grace, your strength, your power working through even the toughest days.

Help us to keep our focus first on you.

Thank you that your power is made perfect in our weakness.

Help us to remember that the gift of Christ, Immanuel, is our greatest treasure, not just at Christmas, but for the whole year through. Fill us with your joy and the peace of your Spirit. Direct our hearts and minds towards you. Thank you for your reminder that both in seasons of celebration and in seasons of brokenness, you're still with us. For you never leave us. Thank you for your daily powerful Presence in our lives, that we can be assured your heart is towards us, your eyes are over us, and your ears are open to our prayers. Thank you that you surround us with favor as with a shield, and we are safe in your care. Thank you for preserving our much-needed organization despite many trials and adversity.

We choose to press in close to you today, and keep you first in our hearts and lives. Without you we would surely fail, but with you, there is great hope. Thank you for your healing power, thank you for bringing us into this new season up ahead. Bless our plans, dear Lord, as we prepare to grow in newness and grace. We look forward to all that you still have in store. In Jesus' name, Amen.

Timeline of Past World Presidents

1884 - 1890	Mrs Margaret Bright Lucas (England)
1891 - 1898	Miss Frances E Willard (U.S.A.)
1900 - 1905	Lady Henry Somerset (England)
1906 - 1921	Rosalind, Countess of Carlisle (England)
1922 - 1930	Miss Anna A. Gordon (U.S.A.)
1931 - 1946	Mrs. Ella A. Boole (U.S.A.)
1947 - 1958	Mrs. John Forrester-Paton (Scotland)
1959 - 1961	Miss Isabel McCorkindale, M.B.E. (Australia)
1962 - 1971	Mrs. T. Roy Jarrett (U.S.A.)
1971 - 1977	Mrs. H. Cecil Heath (England)
1977 - 1986	Miss Millicent K. Harry, M.B.E. (Australia)
1986 - 1992	Mrs. Brigadier Minnie Rawlins (Canada)
1992 - 2001	Dr. Gwendoline Stretton (England)
2001 - 2004	Mrs. Margaret Jackson (New Zealand)
2004 - 2013	Miss Sarah Ward (U.S.A.)
2013 - Current	Mrs. Margaret Ostenstad (Norway)

Dear all,

This is a special edition which I hope you enjoy reading.

Through the grace of the Holy Spirit, we continue working to save people from becoming victims of addiction and helping them find the Lord. I was both touched and inspired to read a message sent by the daughter of a dear member. She was in a life crisis situation but was at peace with God's Will. His Will is beyond our limited imagination. He answered our prayers...may you also be blessed.

“A little thought that flowed out of me in rhyme all by itself. I know it had to be the Holy Spirit. Anyway, may it bless you today. It goes simply---

***Far beyond all human reason, and words upon a page,
His glory lightens all who fret their hour upon this stage.***

To know Him is our freedom, to hear Him is release.

Fix your heart and soul on Him and rest in perfect peace.”

Glory, glory Hallelujah!

We do live in very difficult times and the Covid situation has certainly turned the world upside down but through it all, people have found ways to communicate and draw together for strength and encouragement. Praise God!

You can now read here the WWCTU Plan of Action for 2022-2026.

It is an excellent well-constructed document which I hope you find inspirational and do-able! I believe that all WCTU National groups can implement some of these suggestions. Many countries are already doing it as you will read in the wonderful Fieldworker reports here. Be blessed!

Jesus helps us to offer people his beautiful invitation: *“Come to me, all you who are weary and burdened, and I will give you rest. Take my yoke upon you and learn from me, for I am gentle and humble in heart, and you will find rest for your souls. For my yoke is easy and my burden is light”* (Matthew 11:28-30).

Just as Jesus became a servant to us, he invites us to find rest and strength in him so that we can become servants to others with our message. He loves us so much that he gave his life for us. And he calls us to serve sacrificially so that others can find rest for their souls free from addiction.

Lord, life can be difficult, the ‘workers’ few and the message of temperance not a hot topic.

As we struggle to stand against adversity to get the message across, help us to surrender ourselves entirely to you so that we may find rest for the journey and strength to share your love. Amen.

Margaret Ostenstad

World President

WWCTU PLAN OF ACTION FOR 2022-2026

Our Purpose

The World Woman's Christian Temperance Union (WWCTU) is a Christian women's organization working to prevent alcohol and substance abuse, protect the family, engage women in temperance work, and promote gender equality, interpersonal peace and understanding. Our badge is the White Ribbon and some unions use this as their name.

Our Promise

With God's help, I will advocate and follow a drug-free lifestyle by abstaining from all alcohol, tobacco and illegal drugs.

Our Objectives

1. To develop and implement alcohol and drug prevention projects while continuing existing projects.
2. To make the White Ribbon an active organization within the drug prevention field.
3. To be informed and up-to-date on international research on drugs and drug abuse.
4. To focus on the connection between drugs and partner violence through campaigns, information and preventative measures.
5. To promote cooperation with other organizations who share the same vision as us.
6. To maintain work for clean drinking water and sanitation. (International project)
7. To maintain and strengthen our work with children and youth
8. To focus on the value of creating a drug-free zone when spending time with children and the family, especially during the holidays
9. To strengthen and develop work in the local branches
10. To take good care of the members and continue membership recruitment.

The WOW Factor

As we set out on projects to achieve these objectives, we keep in mind the WOW factor, meaning "Worth Our Work". There is no limit to the value of the work that is done to prevent harm from alcohol and other drugs. You can make a difference in someone's life!

Objective 1. To develop and implement alcohol and drug prevention projects while continuing with the existing ones

We must continue to develop our temperance work in line with signals from the Directorate of Health about increasing support to voluntary organization projects in the drug prevention field.

Policy Options:

- Start by **promoting and protecting your own health** and the health of those around you, by making well-informed choices.

- Emphasize **drug prevention work** among **children, young people and families**. School, sports and family activities are good arenas for drug prevention.
- **Take action through schools, clubs, teams and organizations** to promote better health for all, especially for the most vulnerable such as women and children. It cannot be stressed strongly enough that only serious organizations should do this kind of work.
- **Social Work:** Flower mission, visiting service, regular open meetings, telephone contact, prison visits, etc.
- **Community-based action:** raise awareness in your community about the importance of good health, healthy lifestyles as well as people's right to quality health care services.
- Emphasize the use of the **Bible and prayer:** God's word is the foundation of all our work. We never know when we'll connect with people who are not saved. Therefore, it is important to bring God's message in words and action.
- **Children's meetings at home:** Be bold! Invite children into the warmth of your home. The content must be in the spirit of the WCTU and in agreement with parents
- **Hold your government, local leaders and other decision makers accountable** to their commitments to improve people's access to health and health care.
- **Oppose** targeted marketing of alcohol and other drugs to girls and women
- Raise awareness of the correlation between alcohol and cancer
- Raise awareness of elderly women as a risk group for the use of alcohol and pills.

Objective 2. To make the White Ribbon an active organization within the drug prevention field

We must initiate projects, campaigns and other measures, to promote a drug free lifestyle, strengthen the family, and women's rights, work together (co-operate) with the National Board, the National Office and the local branches.

This is important, since the alcohol and drug industry is now more than ever targeting women of all ages to capitalize on the growing movement of women who are today financially independent and able to purchase their own addictive substances. Early intervention and treatment can be helpful, but the most effective is prevention.

By channelling our energy and drive towards professional ways of working and effective, high-impact projects, we can become an active organization within the prevention field. Initiate projects that cater to the following four roles: protection, prevention, promotion, and transformation.

Protection: providing relief to victims of alcohol/substance abuse, violence, bullying etc.

Prevention: reducing people's vulnerability to alcohol/substance-related harms like non-communicable diseases, accidents, and injuries.

Promotion: increasing people's awareness about these issues, and their chances and opportunities to recover from any related harms.

Transformation: redressing social, political, and economic norms to reflect our values.

Objective 3. To be informed and up-to-date on international research in the field of drugs and drug abuse:

We should actively pursue academic developments and social/political changes in the abuse field and in society as a whole, through professional articles, participation in conferences, seminars, lectures, the White Ribbon magazine, and so on.

Research on the consumption of substances, their harms, and related risk factors help inform us to prioritize our actions, interventions, and steer the direction of our organization. Pursuing knowledge on the eight most common psychoactive substances (alcohol, nicotine, cannabis, stimulants, opioids, depressants, hallucinogens, inhalants) is encouraged.

Objective 4. To focus on the connection between drugs and partner violence through campaigns, information and preventative measures:

We should initiate projects based on, among other things, the prevention of violence and bullying. By increasing efforts for a drug-free and bullying-free world, we can prevent acts of violence against adults and bullying among children and adolescents.

Policy Options for Alcohol-related Partner Violence (WHO, 2006):

- Collect and disseminate information on the prevalence of intimate partner violence, alcohol consumption levels and drinking patterns in the population.
- Promote, conduct and evaluate research on the links between alcohol consumption and intimate partner violence, both by victims and perpetrators that improve understanding of risk and protective factors.
- Increase awareness and routine enquiry regarding intimate partner violence in services addressing alcohol abuse.
- Advocate for policy and legal changes to protect victims of intimate partner violence, to reduce problematic drinking, and to exclude alcohol as a mitigating factor for violent acts.
- Ensure close links between intimate partner violence and alcohol support services, allowing those presenting at one to receive screening and referral to the other.

Objective 5. To promote cooperation with other organizations:

No organization can be entirely efficient on its own. Given the complexity and challenges in relation to prevention of alcohol and substance-related harms, we must collaborate and work together with several organizations. Our visions align with many international organizations that have international frameworks for monitoring and surveillance of alcohol use like the World Health Organization (WHO), United Nations (UN), and International Organization of Good Templars (IOGT).

The White Ribbon's activity framework benefits many of the UN's Sustainable Development Goals (SDGs), including 13 of the 17 SDGs associated with alcohol (IOGT, 2016).

Alcohol is specifically mentioned in SDG 3 on health and well-being. Target 3.5 reads “Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.” By following this framework and cooperating with other organizations, we can achieve our goals and vision more effectively and efficiently.

Objective 6. To maintain the work for clean drinking water and sanitation

Increase efforts to maintain and provide clean drinking water and sanitation around the world. Lack of clean water leads people to produce, sell and drink strong alcoholic beverages. The water that many people have access to is highly contaminated and leads to disease and death, especially among young children. Clean drinking water is a human right and is one of the goals of the UN.

Policy Options:

- **Promote** good water governance by encouraging them to place water higher on global and regional agendas
- **Ensure** that freshwater ecosystem integrity is considered in the government decision making process
- **Protect** freshwater ecosystems by supporting responsible water use and infrastructure
- **Manage** water resources in a changing climate

Objective 7. To maintain and strengthen our work with children and youth:

Evidence shows that parenting programmes are effective in significantly reducing the use of alcohol in preteen and early adolescent children. By creating educational materials that are directed towards children and youth, responsible adults, like parents, teachers, and other parties can communicate appropriately to prevent underage drinking or substance abuse.

Policy Options:

- **Organize** children’s’ camps.
- **Inform** and participate in **raising awareness** e.g. schools, confirmation groups, high schools and various children and youth groups.
- **Participate** in youth festivals and other outward work among youth.
- **Create and/or share educational materials** that help parents, teachers, and responsible adults talk to children and youth about issues like underage drinking, poverty, and drug addiction.
- Encourage abuse prevention efforts in **schools, churches and communities** that focus on the following goals:
 - I. Increase communication between parents and children/youth
 - II. Teach resistance skills
 - III. Provide information to correct misperceptions about alcohol, cigarettes, and other drugs
 - IV. Develop, through education and media, an environment of social disapproval of alcohol and drug use from peers

Objective 8. To focus on the value of creating a drug free zone when spending time with children and the family, especially during the holidays:

Creating and providing positive, drug and alcohol-free activities with children and adolescents are simple and do-able measures that make a difference. The environment, especially the family, can increase or decrease the risk of substance use among young people. Promoting safe and supportive environments is crucial for reinforcing protective factors. Parental skills can be strengthened through family skills training, parent support/peer groups, and the church.

Also, setting an example for your children is crucial. Teens who have seen their parent(s) drunk are more than twice as likely to get drunk in a typical month, and three times more likely to use marijuana and smoke cigarettes (Bloomington Public Health, 2019).

Measures for a drug free zone within the family home (Bloomington Public Health, 2019):

- Emphasize what drug use can do. Discuss how drug use can ruin chances of getting into college or landing the perfect job.
- Encourage children and teens to volunteer where they can see the impact of drugs on the community e.g. local homeless shelters, hospitals or victim services centers.
- Share news reports as discussion openers.

Objective 9. To strengthen and develop work in the local branches

Strengthen and develop work in local branches through the national White Ribbon Bulletin which is the link to the central office. It has 40 pages and has three issues a year. Community awareness of a public health issue can empower the general public with the knowledge and skills necessary to address alcohol and drug-related harms.

Policy Options:

- Attend relevant courses and seminars to keep up-to-date on the development within the field of substance abuse.
- Encourage and support each other and pray for the work we do. Remember the 12 o'clock (noontide) prayer.
- Encourage community-based prevention programs to raise awareness of local problems e.g. alcohol sales to minors and intoxicated people.

Objective 10. To take good care of members and continue membership recruitment

It is important for us to take good care of all our members. Maturing members of the organization should always have a sense of belonging and being needed. All members are encouraged to attend meetings etc., to experience fellowship, gain professional knowledge and inspiration. For the future of the WWCTU it is important to actively recruit new members. Flyers may be used for distribution, as well as updated brochures. The WCTU National Offices encourage and support members to receive organizational training and assistance.

Another way of approaching our goals is using our traditional Department model:

Our organization is divided into the following departments, each with specific focus.

Christian Outreach

The purpose of the Christian Outreach Department is to encourage the Christian walk of the members, emphasizing “Ye are the salt of the earth . . . Ye are the light of the world” (Matthew 5:13a, 14a) and to reach out to the faith community with the WCTU total abstinence message. In accordance with the Sustainable Development Goals, the Christian Outreach department focuses on various projects that cater to both environmental and spiritual sustainability. Because the things of this world are uncertain, individuals are always encouraged to nourish their spiritual well-being by staying positive, following God’s word, and leaving a legacy for future generations. Individuals are also encouraged to pray with the family, read the word of God every day, and raise children who are concerned and sensitive about the problems of this world in order to not waste water or electricity, and love/respect their neighbors.

Education

The Education Department makes the facts about alcohol, tobacco and illegal drugs known to everyone and offers contests to further this effort. Main goals of this department range from holding governments accountable for their actions, to raising awareness about the health risks related to alcohol and substance abuse among churches, communities, and schools. Following the WHO’s statement regarding alcohol, the Education Department aims to create a global culture where it is easier and more acceptable for individuals to not drink or use drugs. The Education Department aims to make the following concepts known to as many people as possible:

- All people have the right to a family, social and work life sheltered from accidents, violence and other negative consequences of alcohol use
- From an early age, all people have the right to objective and accurate information and training on the consequences of alcohol use for health, family and society
- All children and adolescents have the right to grow up in environments where they are sheltered from the negative consequences of alcohol use and, as far as possible, to be shielded from advertising for alcoholic beverages
- All people with risky or harmful alcohol use, and their family members, are entitled to available treatment and care
- Anyone who does not want to drink alcohol or who cannot do so for health or other reasons, has the right to be protected against drinking and to receive support for their abstinence standpoint.

Home Protection

The Home Protection Department strengthens Christian family values, encourages family members to help toddlers and pre-schoolers to develop a lifetime commitment

to total abstinence through the WCTU program and promotes non-alcoholic drinks for entertainment. Just as Jesus, in the Bible stories, give us good examples about living simple, not selfish lives, the Home Protection Department seeks to share Jesus’ love within families and communities by following Jesus’ Godly example. Projects range from taking care of the environment by recycling plastic, glass,

and home wastes, to teaching children and youngsters how to save electricity, and respect resources like food in order to avoid excessive waste.

Social Service

The Social Service Department reaches out to the community and individuals who are neglected, suffering or in need, without any prejudice of race, religion, age or gender by sharing the love of Jesus Christ through giving our love and support. Increasingly, projects are focusing on climate change, and SDGS 12, 13, 14, and 15 which focus on 'Saving the Earth' via responsible consumption, production, and reducing the use of harsh chemicals within homes and businesses.

Children

The Children's Department promotes Christian values and encourages children to make choices that will lead to a drug-free lifestyle. With the recent COVID lockdown, the Children's department has focused on teaching children about specific themes related to the Sustainable Development Goals, including keeping healthy, washing our hands, taking good care of our bodies, looking after one's emotions, and having daily routines that increase our wellbeing and mental health.

Youth

The Youth Department encourages Christian living and promotes a healthy lifestyle free of harmful drugs to the youth. During this turbulent time of an unprecedented pandemic, it has been a challenge for youth to continue their work and faith with the same motivation as before. Many have had sudden changes in their daily lifestyles with online education and lockdown restrictions during the pandemic. The Youth Department focuses on the stable development of the next generation by preparing youth for their futures with strong Christian foundations and renewal within the Lord.

The Youth Department of the Woman's Christian Temperance Union encourages Christian living and promotes a healthy lifestyle free of harmful drugs. In addition, they explore ways in which youth can care for this earth that God to better understand the devastating problems our climate and environment are facing. This direction works well with the value of temperance - a lifestyle of conscious decisions in consumption and habits - to minimise the excessive waste that causes strain on our planet's resources.

Some key facts to motivate us:

- Worldwide, 3 million deaths every year result from harmful use of alcohol, this represents 5.3 % of all deaths.
- The harmful use of alcohol is a causal factor in more than 200 disease and injury conditions.
- Overall 5.1 % of the global burden of disease and injury is attributable to alcohol, as measured in disability-adjusted life years (DALYs).
- Alcohol consumption causes death and disability relatively early in life. In the age group 20–39 years approximately 13.5 % of the total deaths are alcohol-attributable.

INSPIRATIONAL from Fieldworker for Africa and Pacific Islands

Joy Marie Butler
January-March, 2022

The new year has come and gone and already we face March. The news every day is bad but we focus on God and His promise of eternal life and of hope. We must trust Him and focus on His goodness and love. This is the message we must share through WCTU and every means possible. Florence Onsando, president of WCTU in Kenya, works with Pastor John Macharia. These good people lead the Turning Point WCTU House in a large slum town, Ongata Rongai, in Kenya. Together with Douglas, they have helped many people turn from drugs to a life in Jesus. They have given them hope and shared God's love. My dream is that this work can be repeated everywhere - rescuing people from a life of degradation, sickness and violence. It is the work of Jesus. It is the work of WCTU.

News from PNG

Beatrice tells us of the work she continues to do in Papua New Guinea. "We had a wonderful day on World No Tobacco Day. One of the schools in Port Moresby prepared for the day. They drew posters and displayed them everywhere around the School. They also put on some drama and power point presentation." Beatrice was planning to do more work with children in September. Posters that children design can be very effective in teaching the dangers of the SAD poisons - smoking, alcohol and drugs. Congratulations Beatrice.

News from Samoa

Pelenata tells us of the work in Samoa. "In June last year we conducted a 3-day seminar of Temperance for children aged 3-15 years. We started with this text in 1 Corinthians 10. 'Therefore, whether you eat or drink, or whatever you do, do all to the glory of God.' We train the children explaining the importance of our body as the temple of God as the Bible says, 1 Corinthians 3:16,17 'Do you not know that you are the temple of God, and the Spirit of God dwells in you. If anyone defiles the temple of God, God will destroy him. For the temple of God is Holy, which temple you are.' We used posters from our office. Some posters I went to see the health Centre about and asked to borrow but most are from WCTU. There were more than 30 boys and girls who signed the Pledge." Congratulations Pele.

Noontide prayer
Around the world, someone is always praying

Anne Bergen
Organization Secretary

As I write in this edition I am preparing to celebrate the most important season of the Christian year—Easter—where we remember the great love of God as Jesus gave His life on the cross to take our sin and then rose again in victory so that we can have eternal life with Him. As we look in these pages we can see the important part that our Christian faith plays in the work of WCTU around the world.

India - Dr. Mrs. Pushpa Lall went to be with her Lord on April 6th, 2022, aged 93. WCTU India work was revived by her. She had joined WCTU at the age of 16 as a YTC member and eventually became National President. She lived all her life as a prayer and temperance warrior. She was a most humble, kind and loving person who was known as Mother Teresa of Damoh, helping all regardless of religion class or gender. She lived an overflowing blessed life and took her last breath as a saint consciously praising God. Her funeral was attended by 100s of people as well as 100s more online. Her wonderful legacy will live on. She wanted the World WCTU to continue despite desperately low funds and, in Finland, she generously contributed USD\$ 1000 towards that goal.

Cambodia - A medical missionary, Dr. Jung Ho Seo, gave her first temperance lecture at a school by the request of the missionaries, who built the school. The students came from garbage mountain, where their parents live on garbage. Hence their basic life style was addiction to alcohol and drugs. She gave an appropriate teaching based on examples of addicts right among them. Cambodia WCTU believes that the lecture gave the students a life changing experience of what alcohol and drugs may do to their lives if they keep imitating their parents' life- style.

Some of the children from the school in Cambodia. The hill in the background is the rubbish tip where the children live.

Right: In the school. The message on the backs of the students says: "True life in Jesus Christ". This is the secret of a drug-free happy life.

WCTU Australia held its 43rd Triennial Convention in Adelaide in March with a theme, "Come Alive". Those who attended came away feeling encouraged and motivated to continue their work. Photo shows the new executive. Members were delighted when a young mother, Rebecca Edwards, (2nd right) volunteered to be the new Children's Director. WCTU of South Australia's headquarters have been transformed into a fascinating historical display of their work, and tea rooms where groups and others meet. They are called "Teatotalers Tearooms".

Report from Korean WCTU Fieldworker

Dr. Jung Joo Kim

February 19, 2022

1. Missionary Rev. Jung Ha Won and Missionary Mrs. Jung Ah Sohn in Mumbai, India

Two youths in the temperance jackets (the photo in the left) visited Mumbai from Korea. One Methodist Church sent them for a missionary training. They were willing to distribute the Gospel tract, temperance pamphlet, mask, and two gums, which they put together in a ziplock, called a temperance package, every time, over 500 to 1,000 pieces on the streets of Mumbai (three photos in the middle). Missionary Jung Ha Won (his photo in the right), stood to explain how to use Gospel tract he would share with those missionaries present, out of the support of his home church on Jan. 10, 2022, at KWCTU Hall. Missionary Jung Ha Won distributed temperance packages so faithfully even in the midst of the pandemic. I praise the Lord. He gets good support from his home church. Hence, he not only distributes them in Mumbai, but all over India, and overseas such as he does with KWCTU Oversea branches and newly planted national WCTU.

2. Missionary Dr. Jin Soo Hwang and Mrs. Meehee Lee, Ulaanbaatar, Mongolia

Missionary Jinsoo Hwang, Dean of Huree University in Ulaanbaatar, and Doctor in Chemical Engineering, and his wife Missionary Meehee Lee visited KWCTU on January 10, 2022. That day, they all received much blessing from the Spirit of the Lord. After his return to Ulaantataar, he shared Gospel tracts and MWCTU temperance pamphlets with the Cornerstone Church outside Ulaanbaatar, in the Gazort District of 7,000 residents. The church displayed the Gospel tract and the Temperance pamphlets (two photos on the left). Missionary Jinsoo Hwang also visited Rev. Enkbaair of the First Church in Suchbatro in the central district of Ulaanbataar. The pastor as the president of Church Associations with 40 churches affiliation, Missionary Hwang expects him to promote the temperance work (two photos in the middle). Among the four youths, holding the temperance pamphlets and the temperance posters, the three in left are MWCTU

scholarship students, willing to serve in the temperance work in the translation of the temperance educational materials (phot right).

3. Missionary Sangro Lee and his wife Missionary Jung Hee Koh in Kyoto, Japan

Missionary Sung Ro Lee and members of his Friday Bible Study group holds Gospel tract. He displayed the Gospel tracts in the shelf at his church as well. His wife Missionary Jung Hee Koh visited KWCTU Hall with other missionaries from India and Mongolia, as introduced above (photo in the middle in the white coat). She reported about her outreaches among the Chosun-In in Japan, hardly reached by the Korean missionaries, due to their close connection with the North Korea.

These three groups of missionaries visited KWCTU Hall on Jan. 10, 2022, and they each showed their eager commitment to the temperance work in their return to the mission fields. It was exciting to see them so actively gathering, reaching out, and sharing about the urgent need in the mission fields for the temperance work. On Jan. 10, 2022, a new KWCTU coworker, Mrs. Soon Hee Cho served as coordinator and photographer with true humility and gentleness.

4. Cambodia WCTU

Ewha Serung School which runs from Kindergarten to High School with Christian education, wanted to include the temperance education in their curriculum. They asked a new temperance educational material, fitting to the needs in Cambodia. Mrs. Mihae Lee, a trustee of KWCTU, and a counsel of Cambodia WCTU, who from the beginning of CWCTU, was willing to get involved in the temperance work, as Ambassador's wife then in Cambodia. She now serves as the editor of the temperance educational material for Ewha Seung School and now is ready to publish. Ewha Seung School is willing to share with the students, when 1,000 books of CWCTU is published by March, 2022.

You see the cover page sample in the phot left below. The photo right shows the principal Missionary Yousun Kim, sharing the harms of alcohol, nicotine, and other addictive drugs for the students to abstain from them, as they graduate high school and go to college or to work.

The principal of Ewha Serung School, Missionary Yousun Kim gave a special lecture on the temperance education with the graduating class on her return after her visit to Young Joo Kim's Solo Art Exhibition when KWCTU campaigned to prevent FAS. Professor Emeritus Dr. Kil Ja Jun is the president of Vesa, a foundation which supports Ewha Serung School, made MOU with KWCTU for the common efforts to spread the temperance work in Ewha Seung School in Cambodia.

**Seek ye first the Kingdom of God and His Righteousness
and all these things shall be added unto you. Hallelu~~Halleluja!**

Pray for world peace!

His banner over me is love.
Song of Solomon 2,4.
